

District 14 OSSTF
Special Project Fund

Funding for Special Projects

This year, and ongoing, the EiE/PAC committee will have some funds available to fund projects that highlight excellence in education.

This funding will be considered for a one time special school event; school participation in a community event; special projects, such as school art festivals, jubilee/anniversary events, producing a special CD or book, bringing in special speakers and/or similar activities to which OSSTF District 14 members make a contribution. The intent of the funds would be to assist and encourage District 14 members in their efforts and to recognize OSSTF's commitment to education.

1. This funding is not intended to replace funding that would normally be part of the mandate of the KPR Board of Education.
2. This funding is not intended to sponsor students or teachers attending conferences, sports meets, or special programs (such as e=mc2 at Queens)
